FACULTY OF BUSINESS AND LAW

Philosophers would describe the works of the world as a running mechanism spun by the cogworks of business transactions. And a leader in the world of business is a leader in the world per se. As Jack Welch, one of the world's most influential CEO's once articulated, "Good business leaders create a vision, articulate the vision, passionately own a vision, and relentlessly drive it to completion." IUMW strives to perfect the next generations of visionary business professionals.

IUMW's Faculty of Business and Law conducts programmes from undergraduate levels right up to the postgraduate levels. The Faculty is headed by some of the most illustrious industrial heroes both of the local and international business arenas. In lieu with our aim to be a global university the business programmes at IUMW are meticulously designed to produce high-performing individuals that can succeed in any context across the world.

Another factor that sets apart IUMW's rigorous business training modules is the diversity in the undergraduate majors available to our students. Instead of a general Business Administration approach, our courses range across the spectrum of specific specializations that are tailored to match the ever-changing demands of the employment sector. Our business specializations are; Entrepreneurship, Finance, Human Resource Management, International Business, Islamic Finance, and Marketing. In addition to these significant programmes, the Faculty of Business and Law also offers a top-notch Accounting programme and a unique Real Estate Management and Auction programme.

The faculty has also striven to ensure that its postgraduate programmes provide career-progressive individuals with the tools they require to advance in all their professional endeavors. The Masters and PhD programmes range across the fields of Business Administration and our stellar MBA programme comes with a Dual Award option, allowing students to spend a semester in the United Kingdom and graduate with two certificates.

Faculty Of Science, Technology, Engineering And Mathematics

Pure sciences have been pivotal in the development of human understanding of the biological, physical, structural, and mechanical compositions in the world that surrounds us and the civilization we built upon it. Advancement in the field of sciences has been of utmost focus for hundreds of years. It is a fast-paced, dynamic field of discovery that brings about new findings on a day-to-day basis. It has seen leaders and great minds come together to unite as an inclusive, innovative and impactful community that seeks to provide solutions to the scientific and technological challenges faced by businesses, governments and societies across borders.

At IUMW, the Faculty of Science, Technology, Engineering and Mathematics has ventured into the field with an emphasis on real-world applications. The majors offered by the Faculty range across Biotechnology, Computer Science, Information Technology, Internet Engineering, Environmental Management, Project Management and Sustainability. Programmes offered range from pre-university modules through undergraduate and postgraduate levels with a variety of prestigious PhD awards supervised by some of the best academicians in the field.

With the state-of-the art learning facilities offered by our global founders in Malaysia and the United Kingdom, the overall mission is to integrate technology effectively in a digitally driven society while fueling innovation in industry, engineering, medicine and public health sectors. By creating further emphasis on the environmental sciences, the Faculty also aims to enhance our understanding of past and present environmental systems interactions and to promote positive actions for a sustainable future. At IUMW, we believe that success is driven not only by what our students know, but by what our students can do with what they know.

Faculty Of Business And Law

"We have achieved international recognition from the world's two leading accreditation bodies – the Institute of Chartered Accountants in England and Wales (ICAEW) and the Association of Chartered Certified Accountants (ACCA) – which places us among a select group of business schools that have qualified for both. The rigorous external review process confirms the high quality of our academic activities and the global relevance of our programmes."

Associate Prof. Dr. Chong Aik Lee
Dean, Faculty of Business and Law

Student's Testimonials

"Hi! I'm Daniya from Kazakhstan. As an international student, I can say that IUMW is the best university to be at! The staff and teachers are very passionate and show genuine desire to help students to achieve their goals. I love the environment here - the University is centrally located and I've met so many nice people here."

Daniya Ilyassova
Bachelor of Business Administration (Hons)
in Finance

"I was one of the students who had the opportunity to study one semester for free in the UK. It was an amazing experience in UWTSD, Carmarthen. I love it there! The lectures in UWTSD were very different from what I experienced in Malaysia; in terms of their teaching styles and teaching environment, it really broadened up my mind. I would advise any of you to grab the chance if you have."

Debra Teoh Shi-Teng
Bachelor of Business Administration (Hons)
